

## THE GAZETTE.

MONDAY EVENING, JUNE 17.

"JERSEY JUSTICE" is so much superior to what is called justice in other sections of the country, that the citizens of that much abused commonwealth, living under an administration of the laws which protects their lives and property, do not feel particularly aggrieved when they are spoken of as foreigners. In fact they rather like it. Only a short time since a Jersey citizen, who had nothing more than purchase, through a friend, a piece of real estate which the city needed for its own use, and then transferred to the corporation at an advance of \$15,000. Such things are winked at in some places, but not in Jersey. Notwithstanding he had accumulated a nice little pile of half a million, and when he appeared in court to receive his sentence, "was neatly dressed in a suit of dark cloth, and wore a splendid set of diamond studs in his bosom." Jersey justice was unimpaired. Many politicians warmly sympathized with him, and sustained him, able lawyers defended him, but a jury composed in about equal proportions of members of each of the leading parties pronounced a verdict of guilty, and the judge did not shrink from his duty in passing an appropriate sentence, even though he wept while he was consigning him to hard labor and dressed prisoner to confinement for months. We all know how difficult they manage things in New York; and in Chicago it is no better. The trials of the aldermen of that city accused of accepting bribes and general malfeasance of office have begun, and Alderman McAuley was arraigned and acquitted, the principal witness against him declining to testify lest he should criminate himself. The other trials, which will immediately follow, will, beyond a doubt, have a similar termination. — Washington Star.

**PROTECT YOUR PROPERTY.**  
The experience of last year has created much  
anxious enquiry for the best protection of life  
and property against lightning. In every instance

**AMERICAN COMPOUND LIGHT-  
NING ROD**  
has been recommended as the best.

1st. On account of its being in one solid piece  
from tip to terminus.

2d. As presenting seven-and-one-half times  
more conductivity than any other kind.

3d. The conducting surface is of copper, (the  
best known material for this purpose.)

4th. It costs less per foot, and takes a less number  
of feet, under their improved mode of putting  
up.

5th. It is an absolute safeguard against both  
atmospheric and ground electricity.

The enquiry has been so great that the American  
Compound Lightning Rod Company have sent their  
General Agent,

Prof. JOSEPH ASH,  
to this place, who is now engaged in erecting  
rods and soliciting orders in this and adjoining  
counties.

He has first-class certificates regarding the capacity  
of these rods, from A. T. Stewart, Booth's  
Theatre, Pike's Opera House, New York Custom  
House, Bellevue Hospital, and hundreds of others.
